Education

| | |
|---|--|
| Universidade Federal do Pará <i>Bachelor of Engineering, Computer Engineering</i> | Belém/PA – Brazil 2006 – 2013 |
| Universität Stuttgart <i>Exchange student, Electrical Engineering and Informatics</i> | Stuttgart/BW - Germany 2009 – 2010 |

Experiences

Professional.....

| | |
|--|--|
| Accenture Brazil <i>Business and Systems Integration Analyst</i> | São Paulo/SP – Brazil 2014 – present |
|--|--|

Junior consultant at projects that deployed ERP systems like SAP and Oracle RMS (directed and Retail business needs); junior consultant at projects where custom systems were designed and deployed in the Retail and Consumer Goods and Services markets. Main responsibilities and engagement characteristics were:

- client facing and requirements gathering and maturation;
- writing functional and technical specification documentation and product testing;
- fast learning demanded and constant pressure for quality and on time delivery;
- working with international teams and workforces from different cultures;

| | |
|--|---|
| Jambu Tecnologia e Engenharia Ltda. <i>Support Analyst</i> | Belém/PA – Brazil 2012 – 2013 |
|--|---|

Internship at technology *start-up*, which allowed for a diverse experience on almost every area of the business, such as:

- systems administration programming, Bash and Python; remote and on-site customer services;
- design, implementation and maintenance of: medium-sized computer networks, authentication servers, traffic management, web servers, version control servers;
- teacher at preparatory course for international Linux certification exams (LPI exams);
- co-author of didactic material used in said Linux certification course.

| | |
|---|---|
| Laboratório de Processamento de Sinais – LaPS – UFPA. <i>IT Manager</i> | Belém/PA – Brazil 2011 – 2012 |
|---|---|

Responsible for project and implementation of services like:

- training interns on customer support;
- design, implementation and maintenance of: authentication and file servers, version control server, web servers, printer server.

Volunteer Work.....

Grupo Colorindo Sonhos – GCS

Belém/PA – Brazil

Co-Founder and Treasurer

2008 – 2013

The GCS group, an NGO with around 15 people, aims at meeting material and humanitarian needs of officially installed social institutions around and in the city of Belém. The group promotes awareness campaigns, organizes discussion forums, offers complementary activities for the people attended by the partner institutions and runs fundraisers. As the treasurer, I was responsible for the group's finances, as well as to relay and apply received donations.

União Espírita Paraense – UEP

Belém/PA – Brazil

IT Task-Force Manager

2006 – 2012

UEP promotes annual events with state relevance for around 800 participants, and for that needs basic IT infrastructure. As a manager, I specified and supervised the development of an on-line registration service, processed registrations, planned and supervised the temporary IT infrastructure, and performed customer service.
