## Education

**Universidade Federal do Pará**

*Bachelor of Engineering, Computer Engineering*

**Belém/PA – Brazil**

2006 – 2013

**Universität Stuttgart**

*Exchange student, Electrical Engineering and Informatics*

**Stuttgart/BW - Germany**

2009 – 2010

## Experiences

### Professional.....

**Jambu Tecnologia e Engenharia Ltda.**

*Support Analyst*

**Belém/PA – Brazil**

2012 – 2013

Internship at technology *start-up*, which allowed for a diverse experience on almost every area of the business, such as:

- systems administration programming, Bash and Python; remote and on-site customer services;
- design, implementation and maintenance of: medium-sized computer networks, authentication servers, traffic management, web servers, version control servers;
- teacher at preparatory course for international Linux certification exams (LPI exams);
- co-author of didactic material used in said Linux certification course.

**Laboratório de Processamento de Sinais – LaPS – UFPA.**

*IT Manager*

**Belém/PA – Brazil**

2011 – 2012

Responsible for project and implementation of services like:

- training interns on customer support;
- design, implementation and maintenance of: authentication and file servers, version control server, web servers, printer server.

### Volunteer Work.....

**Grupo Colorindo Sonhos – GCS**

*Co-Founder and Treasurer*

**Belém/PA – Brazil**

2008 – 2013

The GCS group, an NGO with around 15 people, aims at meeting material and humanitarian needs of officially installed social institutions around and in the city of Belém. The group promotes awareness campaigns, organizes discussion forums, offers complementary activities for the people attended by the partner institutions and runs fundraisers. As the treasurer, I was responsible for the group's finances, as well as to relay and apply received donations.

**União Espírita Paraense – UEP**

*IT Task-Force Manager*

**Belém/PA – Brazil**

2006 – 2012

UEP promotes annual events with state relevance for around 800 participants, and for that needs basic IT infrastructure. As a manager, I specified and supervised the development of an on-line registration service, processed registrations, planned and supervised the temporary IT infrastructure, and performed customer service.
